Notables

- Our parent company, Velocity Servers Inc., has been in the technology field since 2003. ColoCrossing began operations in 2006 to fill a growing need for full service hosting solutions.
- We’re always open; our datacenters are staffed 24/7/365.
- Every aspect of our network, cooling and backup power generation is fully redundant.
- 100% uptime service level guarantee (SLA).
- Our flagship Chicago and Dallas datacenters carry SAS 70 Type II accreditations.
